Fellow Moss Creek Marines--  
Here is a thank you note from Lt. Scott Sasser--the team leader for PsyOps--1/2 SCR a 6 person team at Tarin Kowt, Afghanistan--The boxes we sent to his unit is appreciated--I sent you a picture of his unit last night--  
Hope to see you at lunch today--1230 at the Clubhouse--  
Fred

Sir,

The first four packages arrived two days ago and we got the last to today. Thank you so much. My guys were very appreciative of your generosity. Unfortunately I wasn't able to get any pictures of them opening the stuff (they dove in pretty quick). However, I included a picture of me and my team (I am in the center). This was taken recently when we went to zero the optics the Marine Corps gave us for our weapons.

Thank you again for your support and generosity. You not only provided some essentials my team needed but you also boosted their spirits. Thank you so much.

Respectfully,

Scott

Scott--

That is good news about the Marine Corps providing you with needed tactical equipment--Am still trying to get some sponsors to help on the SureFire lights--

Yesterday I did mail the 6th box with the calling cards and other items--Please let me know when you receive our boxes--It is probably not possible to take a few pictures for our archives is it? We ask units that we have adopted to send a few pictures of our Marines opening the boxes--it helps with our fundraising efforts--But-- if that is not possible please don't sweat it--Will keep you posted on our success in breaking some \$\$\$\$ loose from some of the companies in our area--

Semper Fi!

Fred

Sir,

Thank you so much for all of that. I will be keeping an eye out for it. I also have some good news. The Marine Corps came through and provided us optics for our weapons, so we are no longer in the market for rifle optics. We are still looking at purchasing the SureFire lights since that is something the Marine Corps will never be able to provide us. I just wanted to let you know. Thank you again.

Respectfully,

Scott

Scott--

Am sending 1 more box to you with 12 Calling Cards--12-pairs of boot socks--6 medium and 6 large--some candy and beef jerky--and 1 book from the Marine Corps reading list--This will make a total of 6 boxes--

Fred

Sir,

I greatly appreciate your support. You are sending more than I expected. This is all stuff we can use, I just don't know how quickly we will go through it. Once these are sent, you can certainly hold off on sending more. We are fairly mobile and have to carry everything with us if we move to another location. I don't think we are moving anytime soon, but just in case, this will all be more than enough. Thank you very much

Respectfully,

Scott

Scott--

Packed 6 boxes yesterday for your team--am awaiting some books from Barnes and Noble from the Marine Corps Reading List and some socks for your team--2 pairs each--Here is what is in each box--

1. 3--Body wash--large--6--toothbrushes--10--Chapsticks--2--sunscreens--8--deodorants--4 large tubes of toothpaste--
2. 1 Body wash--3--foot powder--1 --Sunscreen--4--packs of wipes--
3. 4 Crest Toothpaste--4 packs of wipes--6 bags of peanuts--6 packs of Crystal Light--
4. 2 bags of 3--beef jerky--1 box of 90 Quaker Chewys--6 packs of CLight--18 bags of peanuts--
5. 2 boxes of 90 Quaker Chewy's--8 bags of Beef Jerky--12 Calling Cards--
6. 4 bags of Beef Jerky--5 pounds of Jolly Rancher pogeey bait--

Will probably need another box for the books and the socks--

If the books and socks are not here by tomorrow--I will send the 6 boxes on Saturday--

Still waiting to hear from our fundraising guy on getting some \$\$\$ from the private sector on the tactical equipment--To be honest--our group feels that the Marine Corps should be providing you this equipment in order to accomplish your mission--every unit we have adopted this year has asked for socks which we got plenty of in Vietnam--So far we have shipped over 3,000 pairs of boot socks--Why the Marine Corps does not provide more socks to our Marines is not clear to us--

If you can think of any additional items that would make life easier for your team--please let us know--

Semper Fi!

Fred

Sir,

A dozen phone cards would be great. I can't think of anything additionally right now that we would need. I appreciate your support. SCR is an Army Stryker unit. I believe it stands for "Stryker Cavalry Regiment" but don't quote me on that. They are essentially the same thing as the Marine Corps' LAVs. As I have mentioned, being a team of Marines filling Individual Augment NATO billets, we often have to work with other units and also don't receive much support from the Marine Corps. As for hearing about you, I had heard of a Marine getting a nice care package from you awhile back. Then I was talking with my mom about care packages and mentioned what I thought was your organization's name. I guess she did some homework and got in touch with you. Again, thank you for the support.

Respectfully,

Scott

Scott--

How about a dozen phone cards? We will be done shopping for your unit on Monday--for the easy stuff---we plan on sending Beef Jerky--deodorant--body wash--toothpaste--Gatorade powder--Powerbars--wipes--foot powder--sunscreen and telephone cards--those items will be in the mail next week to you all--Is there anything else you might want or need?

The tactical stuff will take more discussion among the officers and we have one member who is in charge of fund raising who is dealing with a few companies to see if we can scrounge up some \$\$\$---

What does SCR stand for--or is it top secret?

Did your Mom tell you how she found out about the Moss Creek Marines?

Semper Fi!

Fellow Moss Creek Marines--  
Our last adopted unit--PsyOps--1/2 SCR Has received received the firs 5 boxes we sent to them--1 more to go--This is a unit of 6 Marines at FOB--Tarin Kowt--they operate outside the wire most of the time--This is the group that asked us for Tactical equipment--the Marine Corps has finally provided them with everything they had asked for except the Surefire flashlights which they are buying themselves--Lt. Sasser sent us a picture of his team--See attached--

Subj: Re: Moss Creek Marines

Sir,

My Marines and I are doing well. The socks and wipes as well as the hygiene items have been very well received. As expected, my team ate through the granola bars, beef jerky and other food items surprisingly quickly. The phone cards have also been nice for me to easily encourage them to call home. I know it means more to them than they will admit and it certainly means a lot to their families. We have enough of the hygiene items to hold us until the rest of our deployment. My team and I have just over two months left in Afghanistan. We will soon be heading to a base nearby where we will not be able to receive mail for awhile. Since we are nearing completion, and may have mail problems, you do not need to send us anything else. We have the essentials so I feel any additional money should be spent towards other units. My team and I are extremely grateful for the overwhelming support you provided. You are providing a great service to our Marines in the fight and I am honored that you were able to support my team. Thank you again for everything and I will try and keep in touch.

Semper Fidelis,

Scott
